The official working day is eight hours for physicians under 40 years of age, seven hours for those between 40 and 50, and six hours for others.

In the discussion today, the flectery of the Trade Unioas Department, Mr. Aharan Becker, asserted that the demand for shorter hours was a backhand way of getting a wage increase and was designed to boost earnings through overtime pay. He said that Kupst Holim doctors were earning from F.230 to H.270 a month, double the income of an ordinary worker.

Ramir Opposed

Mr. Mordecai Namir, Secretary-General of the Histadrut, also opposed the demands for wage increase and shorter hours. He said that time was not opportune since it conflicted with the Government drive to urge the people to make extra efforts.

It was admitted by representatives of the doctors that many of them received patients in their home privately for extra income in violation of their contracts. They demanded the lagalization of this practice. In the discussion today, Mr. Namir expressed residences to comply with this demand, but Mr. Becker opposed
